Global list of spectra:

NGC1275

Spectral attribute controls

Coordinate system: Wave-length in air

Units: Angstrom

Standard of rest: Observer

Date of observation: 1995.5

Observatory: William Herschel 4.2m Telescope

Longitude of observer: W17:52:53

Latitude of observer: N28:45:38.10

RA of source: 3:19:47.5

Dec of source: 41:30:41

Rest frequency: 100000 GHz

Spectral origin: 0

Source rest frame: Centre of Sun

Source system: Relativistic velocity

Source velocity: 5300
